An experienced manufacturer of DNV Offshore Tool Basket, Offshore Tool Box, Lifting Frame, DNV Open Top Container, etc..

WHO WE ARE

OBP is a global supplier,

The company continues its operations by serving as a solution partner to both private and state-owned enterprises in Türkiye, the Middle East.

With solid expertise in international procurement, technical negotiations, and local market representation, OBP offers reliable, transparent, and technically sound business solutions. We also act as regional agents and commercial partners for selected equipment manufacturers, and efficient execution of complex industrial projects.

In addition to our core business for onshore operations, we are able to offer customized solutions and special-design manufacturing based on client specifications for offshore-related equipment with DNV and required certifications. We are fully capable of cooperating with your esteemed company to manufacture tool racks, containers and other offshore components in accordance with DNV 2.7-1 standards, and to provide DNV certificates issued by LR (Lloyd's Register) or RINA upon completion.

OBP: Partnering with a Global Leader in Logistics and Energy Equipment

OBP collaborates with one of the world's foremost suppliers of logistics and energy equipment. The group's core business areas span containers, specialized vehicles, energy solutions, chemical and food equipment, marine engineering, heavy trucks, airport equipment, and comprehensive logistics services.

With a global footprint, the group operates an extensive network of member companies and customer service centers, supported by state-of-the-art R&D and manufacturing facilities. The company specializes in providing tailored containerized logistics equipment, integrated systems, and both standardized and customized services to meet the diverse needs of clients across industries.

Their portfolio includes a wide range of customized products used extensively in shipping, rail and highway transportation, marine engineering, petrochemicals, steel, coal, electricity, energy storage, photovoltaics, food, medical, environmental protection, data management, automotive, aerospace, military, construction, and other industrial sectors.

All manufacturing partners we work with are certified under ISO 9001 and other international management systems. They also hold certifications from major classification societies including CCS, LR, BV, and DNV.

OBP is committed to meeting the evolving demands of its clients through advanced technology and outstanding product quality. Our partners maintain provincial-level enterprise technology centers, industrial design hubs, and engineering research institutes,

supported by a professional R&D team of over 100 experts. The company utilizes cutting-edge digital R&D and manufacturing tools (CAD, CAE, PDM, PLM, etc.) to develop a wide range of innovative products.

Production and testing facilities are equipped with industry-standard non-destructive testing equipment (UT, PT, MT, RT), flaw detection systems, and comprehensive laboratories to ensure product quality and reliability. The company is certified under ISO 9001 (Quality Management), ISO 14001 (Environmental Management), ISO 45001 (Occupational Health and Safety), ISO 50001 (Energy Management), and has also received Green Factory certification.

In alignment with our commitment to sustainable development and corporate social responsibility, we utilize eco-friendly materials and water-based paints to ensure our products are safe, efficient, energy-saving, and environmentally sustainable.

Our strategic focus lies in the niche field of logistics equipment. We prioritize deep customer demand analysis and fast-response service, aiming to build long-term and stable partnerships. In addition to ISO standard containers, the company drives innovation in specialized containers and tank equipment—establishing itself as a leader in these sectors.

Looking ahead, the company will continue to strengthen its focus on logistics, energy, medical care, and environmental protection. By accelerating the transformation of product R&D, enhancing system integration capabilities, and exploring new "container+" application areas, we are committed to shaping the future of smart, sustainable logistics and equipment solutions.

CUSTOMIZED PROJECTS

Our Special Services – Customized Solutions with Precision and Reliability

At OBP, we are fully committed and well-equipped to provide the customized products you require. Our team has a proven track record of delivering tailored projects to meet specialized needs across industries and regions.

We have successfully collaborated with leading suppliers to deliver shelter containers for the Norwegian Armed Forces, as well as customized bunker solutions for prominent European companies. These projects reflect our capability in handling high-standard, mission-critical applications.

We are confident in our ability to serve as a reliable and long-term partner for your DNV-certified custom projects. Our process is comprehensive and customer-focused. Upon request, our technical team can visit your site to assess your specific requirements and take precise measurements. Based on this, we will develop a complete set of technical drawings for your review and approval before production begins—ensuring accuracy, transparency, and alignment at every stage.

This hands-on, end-to-end project development is what we have been successfully delivering for years, and we are ready to bring the same level of expertise and commitment to your next project.

TECHNOLOGY & SUSTAINABILITY

Special Container

35t Open Top Container (2550/2438 mm wide)

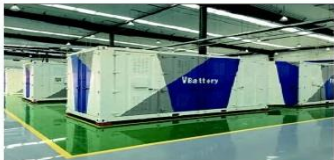

30t Open Top Container (2438 mm wide)

Steel Coil Container

Integrated Equipment

Battery Energy Storage container

Hydrogen Energy Storage container

Energy Storage Peaking Power Station

Generator / Voltage Transformer Container

Offshore Container & Offshore Tank

Mini Container With Middle Shelf

Offshore Container

Side Open Offshore Container

OT Offshore Container with HDG Surface

Vertical Offshore Tank

ISO CONTAINER & Modular Container

ISO 20GP Dry Cargo Container

ISO 40HC Dry Cargo Container

ISO 40GP Dry Cargo Container

ISO20HC Dry Cargo Container

Vehicle Logistics Equipment

External Passenger Car Transport Rack

TANK & IBC

UN T14 Vertical Portable Tank

UN T14 Horizontal Portable Tank

UN T11 Horizontal Explosion-proof heating Portable Tank

Spacecraft Fuel Filling Tank

IBC For Paint

Special Container

40 ft Half Height Bulk Cargo Open Top Container

20 ft Half Height Bulk Cargo Open Top Container

Aluminum Oxide Container

20ft Powder Tank Container (PTA, etc)

Integrated Equipment

Mobile Medical Container

Mobile Medical Unit

Offshore Container & Offshore Tank

Horizontal Offshore Tank

20ft' Offshore Tank

Square Offshore Tank

Heli-fuel Offshore Tank

Vertical Offshore Tank
With Heating Insulation System

ISO CONTAINER & Modular Container

Modular Container Office Building

Modular Container Hotel

Modular Container Residential House

Modular Container Town

Vehicle Logistics Equipment

External Passenger Car Transport Rack (SUV Specialized)

External Passenger Car KD Piece Transport Rack

TANK & IBC

IBC For Dangerous Liquid

Highly Dangerous Goods
Aluminum IBC

IBC With Heating Jacket

IBC For Resin Particle

IBC with Cooling Jacket

IBC for Chemicals Powder

Special Container

Composite Lightweight Open Top Bulk Container

Bulk Container (for Grain, Fertilizer, Sulphur ,etc)

Side Open Container

40 ft Foldable Container

Integrated Equipment

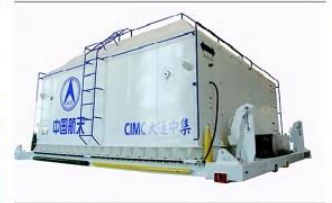

Mobile Power Equipment Container

Wastewater Treatment Container

Data Center Container

Spacecraft Packaging Container

Offshore Container & Offshore Tank

Offshore Mud Skip
With HDG Surface

Offshore Skip

Offshore Basket

Half Height Offshore Container

Offshore Tool Box

Bottle Rack
